CERTIFICATE

Certification in Python workshop

PROFILE SUMMARY

Motivated and results-driven computer science graduate seeking a challenging position as an entry-level software developer. Possessing a solid foundation in software development and programming languages.

PROJECTS

Garage Mate

Developed a comprehensive automotive parts and services e-commerce platform with modern UI/UX design, featuring dynamic product catalogs, service booking systems, and interactive animations, using React, Tailwind CSS, and GSAP with Scroll Trigger.

Portfolio Website

Developed a personal portfolio website using HTML, CSS, and JavaScript, showcasing my professional profile, education, and skills. The website features a responsive layout, dark mode design, and smooth animations for enhanced user experience. It includes structured sections such as Home, About, and Education

Food Website

Developed a dynamic and responsive food recipe website using HTML, CSS, and JavaScript to showcase a collection of recipes with visually appealing layouts and user-friendly navigation. Implemented key front-end features including a category-based recipe filter, interactive search functionality, and recipe detail pages. Employed responsive web design techniques to ensure compatibility across mobile, tablet, and desktop. This project enhanced my skills in front-end development, problem-solving, and web performance optimization.
